## Update

We have continued to welcome children from Years N, R, 1 and 6 back into our schools this week. The children have settled into the routines and are now used to the frequent handwashing and the concept of staying apart from each other.

This week the government announced that schools could open more widely IF they had the capacity. Unfortunately at our schools we do not have the capacity to open new social groups for other year groups to attend. We are of course conscious of the time some children have been out of school but with the guidance as it stands there is no way we can change the system in place safely to provide more places. Our online learning offer via Eschools remains in place and engaging with that remains important in keeping brains ticking over.

There has also been mention of a 'catch up programme' over the summer holidays. We have no further information on this. As soon as we know anything, we will be passing information on to you as parents.

We are looking for a way to get the children into school to spend some time with their current teacher and talk to them about moving on to their new teacher. This will rely heavily on the weather as it will need to be outdoors so as not to 'pop' the existing bubbles in school. We are looking to finalise these plans within the next week and will get information out as soon as we can.

In terms of September, there are no concrete plans or guidance from the Department for Education yet. We will plan for a 'normal' start with all children allocated to their new classes but this may well not be the case with further phased opening. The prospect of 'blended learning' (learning between school and online) could be an option moving into the new academic year. As always, the children remain at the heart of the decisions we are making. They are all still very important parts of our puzzle here at school. We can't wait for the day when they can all be back in the box safely.

## Spot Light on Excellence.....

### Fantastic fundraising

For my spotlight I would like to share with everyone how proud I am of one of our pupils. At the beginning of lockdown, Roxy set herself the challenge of completing 30 cartwheels everyday that she was at home. Although this has turned out to be longer than she may have first expected she has kept her goal and still continues her challenge. At the beginning of this week, she had raised over £1,000 for the NHS. This is a fantastic achievement and it is all down to her dedication. Well done Roxy, it is great to see that you continue to be a shining light.

**Associate Headteacher**

### Our Chosen Charity

This years chosen charity is  
Zoë's Place.

Zoë's Place is a baby hospice that provides palliative, respite and end-of-life care to babies and infants.

Our Total so far is:

**£235.06**

# What to do if you are feeling unwell

## Step 1: Symptoms

If a child, staff member or member of your household develops a symptom, **STAY AT HOME**.

Call school at once to notify us

If your child or a staff member develops a symptom in school, they will be sent home.

## Step 2: Isolation and Testing

Person with symptoms **STAY AT HOME** for at least 7 days and book a test:

( [www.nhs.uk/coronavirus](https://www.nhs.uk/coronavirus) or call 119). Rest of the household STAY AT HOME for 14 days (see government advice for ending isolation).

Rest of the social group to be notified of the situation.

### Step 3: Positive Test–

#### Confirmed Infection

Child or adult testing positive remains in isolation alongside their family. Follow latest government guidance.

The social group for that child or staff member will be **closed for 14 days** AND children and staff **MUST isolate**.

### Step 3: Negative Test

Where the child or adult tests negative, all isolation ends and anyone connected who was in isolation returns to work or school.

## Step 4: Further Action

School notifies Public Health England and the rest of the school continues as normal with the risk assessment in place. School will only close if told to do so by PHE.

Classroom for the social group will be deep cleaned.

Test and Trace will be operated for the infected person.
